## OBJECTIVE

Motivated and detail-oriented Web Developer with 1 year of hands-on experience in web design, frontend, and backend development. Seeking a challenging position to utilize my skills in building responsive web applications and delivering user-focused solutions that meet business needs.

## Resume Summary

I am Muhammad Ibrahim, a passionate and creative Mern-stack web developer with 1 year of experience in designing and developing dynamic websites and applications. My expertise spans across frontend technologies like **HTML, CSS, JavaScript, React.js**, as well as backend tools including **Node.js, Express.js, and MongoDB**. I specialize in crafting responsive UI/UX designs, integrating REST APIs, and building scalable, secure web systems. I also write clear, maintainable code and detailed documentation for each project.

Strong understanding of the software development lifecycle, problem-solving mindset, and a commitment to continuous learning. Proficient in using Git, GitHub, and collaborative team tools.
